

30 July 1971

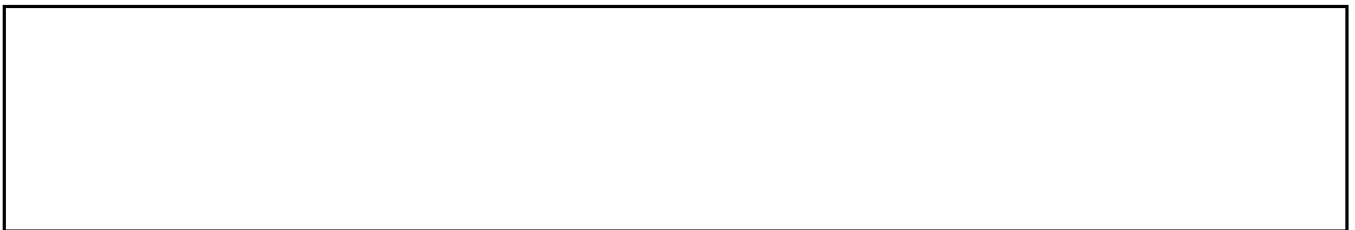

MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Activities Report  
26 - 30 July 1971

STAFF TRAINING BRANCH

25X1A6a 1. After consultation with the CA Staff it was decided that the experimental political situation, which will be incorporated in a BOC exercise if accepted [REDACTED], will be presented for the background of instructors there 30 September - 1 October. The WH Division Politics Workshop will be presented 19 - 22 September. The Covert Action Operations Seminar will continue to be run on an "as needed" basis.

25X1A8 2. The CS Bloc in the IWA Course has been subjected to a thorough critique, on the basis of comments of participants, monitors, and some students. It appears that we are not far off the mark, either with respect to content or technique. Some lectures need "tightening up" to insure better continuity and comprehension. The portrayals of the Country Team and the Station meetings, and the group discussions proved effective in getting ideas across, involving the students, and changing the tempo. Revisions will also be undertaken here, in the interests of better pacing and getting accurate meanings and impressions across. More time for question-answer sessions and recapping of major points also appears in order.
